RELEVANT WORK HISTORY & ACCOMPLISHMENTS

IT Consultant, Harmon Vision Center: Overland Park, KS – 2001 – 2018

- Responsible for all IT aspects of a busy optometric family practice including system administration, network administration, database administration, security, backup, hardware procurement, software implementation, troubleshooting, and on-call tech support.
- Designed, implemented, and managed a 15 client mixed-OS network (Windows, macOS, and Linux).
- Procured and implemented multiple Windows Server replacements mapped to cost-performance goals for multiple software solutions including a custom 9-drive RAID 1 + 10 installation utilizing consumer-grade SSDs at a cost-savings of over \$10,000 vs comparable quoted solutions.
- Automated a local, offsite, and cloud backup system utilizing multiple NAS, DAS, and cloud targets.
- Multiple Microsoft Server installations with Hyper-V virtualization and SQL Server roles.

Writing Tutor, JCCC Writing Center: Overland Park, KS – 2007 – 2011

- Tutored college students in all stages of the writing process, in addition to leading orientations, presentations, and technology training.
